

Dear Colleagues and Partners,

It is with great pleasure that **Euvillages**, a leading initiative in **rural innovation and European project development**, expresses its sincere appreciation for **Smart Leap GmbH**.

Located in **Lecce, Italy**, **Euvillages** focuses on **revitalizing rural communities through smart technology, sustainable education, and EU-funded projects**. We partnered with **Smart Leap** to enhance **our research capabilities and training programs** in the field of **smart village development and digital literacy programs for rural regions**.

Smart Leap provided essential guidance in:

- **Developing AI-Based Sustainable Rural Training Modules** – These programs integrated **technology, sustainability, and education**, helping us empower **local farmers, SMEs, and community leaders**.
- **EU Project Planning & Strategic Implementation** – Their expertise in **EU Horizon programs and funding applications** enabled us to **secure grants for smart agriculture and rural digitalization projects**.
- **Enhancing Smart Community Engagement** – With their support, we created **interactive training solutions** that improved **rural economic resilience and sustainability awareness**.

The collaboration with **Smart Leap** resulted in **greater access to European funding, improved digital skills in rural communities**, and a **stronger strategic roadmap** for the future.

We wholeheartedly recommend **Smart Leap** for **organizations, municipalities, and research centers** looking to enhance their **AI-driven training, funding strategies, and community education programs**.

Best Regards,

[Lara Mastrogiovanni]
